

Comments from Korean medical association

Author(s): Shin DC
Year: 2010
Journal: Japan Medical Association Journal : Jmaj. 53 (2): 132-133

Abstract:

I would like to thank Dr. Calloc'h and French Medical Association (AMF) for the suggestion to jointly deal with the issue of climate change within the framework of human security especially for the impact in small island areas and large semi-desert areas. It is the issue that risks the future of human beings and physicians should take initiatives in reducing its impact on human security.

Resource Description

Communication: ☒

resource focus on research or methods on how to communicate or frame issues on climate change; surveys of attitudes, knowledge, beliefs about climate change

A focus of content

Communication Audience: ☒

audience to whom the resource is directed

Health Professional

Exposure : ☒

weather or climate related pathway by which climate change affects health

Unspecified Exposure

Geographic Feature: ☒

resource focuses on specific type of geography

Desert, Ocean/Coastal

Geographic Location: ☒

resource focuses on specific location

Global or Unspecified

Health Impact: ☒

Climate Change and Human Health Literature Portal

specification of health effect or disease related to climate change exposure

General Health Impact

Medical Community Engagement:

resource focus on how the medical community discusses or acts to address health impacts of climate change

A focus of content

Mitigation/Adaptation:

mitigation or adaptation strategy is a focus of resource

Adaptation, Mitigation

Population of Concern: A focus of content

Other Vulnerable Population: Residents of small islands

Resource Type:

format or standard characteristic of resource

Policy/Opinion

Timescale:

time period studied

Time Scale Unspecified
